### PR KADECO: PLEATED - VS2 ELEGANCE

The new premium package VS2 Elegance is your optimal combination of high-quality pleated components and sophisticated installation technology for tensioned systems with freely movable top and bottom rails.

Experience the highest operating comfort in an elegant version: The package includes, among other items, a design handle with excellent material effect. The surface of the handle can be selected to match the profile of the pleated blind - in powder coated black, white or anodized.

Due to the innovative balance design, your pleated blind never gets into a slanted position. Both operating rails can be guided in a balanced way and are always in perfect horizontal synchronisation.

The clamping shoes with an integrated magnet for the top rail, ensure a harmonious finish at the window. Due to the magnet locking, the operating rail closes flush with the window and looks regal. Especially for large windows, the latch provides additional security through ideal holding force and comfortable operation of the pleated blind.

The VS2 Elegance package combines the best features of a high-quality product.
